

- 4 inputs (phono, line 1,2,3)
- 1 pair fixed outputs
- All precision components
- Heavy (2 ounce) copper circuit board
- Fully tested, burned-in, and auditioned
- Detachable IEC power cord
- 16 LB net weight (22LB shipping weight)
- Power requirements: 120V or 230V - 50/60Hz

## Metis Magnum Preamplifier

The Metis Magnum presented us with a significant engineering challenge; to create a truly high end preamp at an entry level price. We believe we have succeeded! The Metis offers outstanding performance and build quality that is accessible to almost anyone with a love for great sounding music. Entirely hand built in the USA, the Metis is assembled to the same exacting standards as our most expensive preamplifiers. Since its introduction the Metis has won numerous industry awards only a few of which include: The Absolute Sound "Budget Component of the Year", Hi-Fi + "Product of the Year", Soundstage "Reviewer's Choice Award" And "Exceptional Value Award."

### General Features and Specifications:

- 20Hz-30KHz bandwidth
- Slow start turn on sequencing
- 12 dB gain line stage
- Ultra accurate 38dB gain phono
- Discrete headphone amplifier
- Massive high storage linear power supply
- (2) 6SN7 tubes
- Gold plated RCA inputs
- Machined aluminum faceplate
